

Executive Summary

West Virginia Department of Education Office of School Operations: Office of School Facilities

Introduction: The Summers County Board of Education requests approval of an amendment to their current 2010-2020 Comprehensive Educational Facilities Plan (CEFP).

Changes: The Summers County Board of Education requests to relocate the staff and students from the Summers Middle School building to the Summers County High School building for the 2020-21 school year due to various safety issues at the Summers Middle School location. Two separate schools will be operated out of the high school building for the school year. This is not a closure of Summers Middle School.

Impact: Temporarily relocating the students and staff of Summers Middle School to the high school location will provide a safer environment for 2020-21 school year. This will give the county board of education time to either determine if a permanent school closure is needed or to secure funding and make the necessary repairs to address the safety issues that have necessitated this relocation.
