

School Building Authority of West Virginia
OHIO COUNTY – WARWOOD PreK-8 SCHOOL RENOVATIONS

This project proposes to add a safe school entrance with separate student and visitor entrance points with increased visibility to the exterior.

The project proposes electrical upgrades including the electrical panels that still have fuses.

At the elementary school cafeteria and kitchen, upgrades are planned to all finishes with improved HVAC, acoustics, life safety, and security.

The media center will be divided into two classrooms with one as an innovation (makerspace) lab with a sink.

School Building Authority of West Virginia
OHIO COUNTY –WOODSDALE ELEMENTARY SCHOOL RENOVATIONS

The project proposes a new secure entry and a cafeteria addition to the main entrance.

Woodsdale Elementary plans a cafeteria addition to reduce their six lunch periods

The second floor will be reconfigured, so students do not have to travel through other classrooms to access their room.

The large media center will be reduced, and space will be reconfigured within this space to house needed classrooms and a STEM lab.
