

School Building Authority of West Virginia
BOONE COUNTY– SCOTT HIGH SCHOOL RESTROOM RENOVATIONS

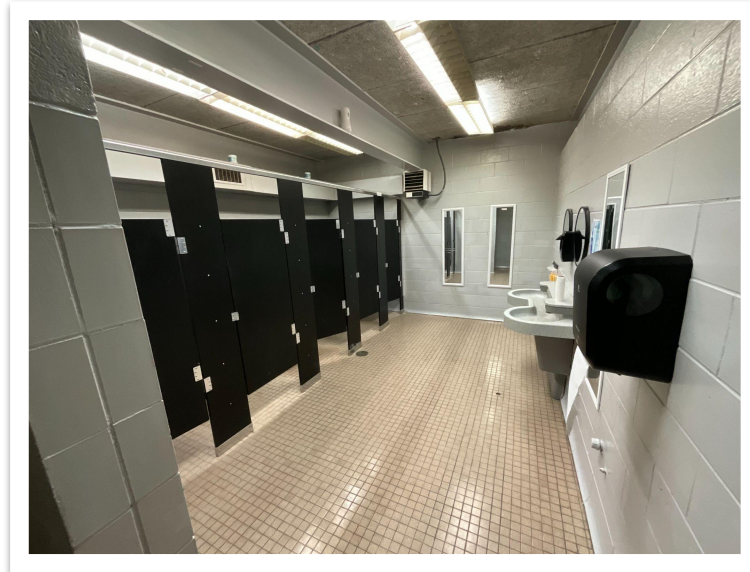

The restrooms have labyrinth entries, originally designed to provide privacy, increase airflow, and limit the spread of germs.

The partition walls will be removed, providing teachers with a clear, line-of-sight view from the hallways.

Sinks will be relocated to the side walls.

Stalls will be relocated to the back walls and will have floor-to-ceiling doors and partitions for privacy.
