

School Building Authority of West Virginia
GREENBRIER COUNTY - ALDERSON ELEMENTARY SCHOOL – ADAPTIVE REUSE

Existing Alderson Elementary at service drive with underground fuel tank below and a covered walk to old cafeteria building in distance.

Existing AES cafeteria has a narrow service kitchen and Pre-K classroom through doorways.

Existing AES cafeteria shows water damage in walls and exposed conduit and rusting exposed plumbing.

There is no air conditioning at the existing AES. Heat is provided by the propane fueled furnace at the main building.

GREENBRIER COUNTY - ALDERSON ELEMENTARY SCHOOL – ADAPTIVE REUSE

Image of old high school where the entrance and addition will be located for the future elementary school's use.

The proposed addition connects the gymnasium and old HS buildings as the elementary school facility.

Current "gymnasium" in old high school that will continue to be shared with the community once renovated.

Second floor corridor in old high school showing ceiling height, window and wall condition.
