

School Building Authority of West Virginia  
MARSHALL COUNTY – NEW BENWOOD-MCMECHEN ELEMENTARY SCHOOL

Center McMechen ES was constructed in 1949 with two floors of open classrooms and interrupted throughout the day.

Center McMechen ES has issues with ADA and access to the building.

The HVAC, electrical upgrades and flooding on the exterior of school keep kids out of school.

Marshall County has purchased a 7.5 acre site right beside Route 2 for the new school site.
