

School Building Authority of West Virginia
MONROE COUNTY – MOUNTAIN VIEW PK-8 SCHOOL ADDITION & RENOVATIONS

The Office of Mountain View PK-8 is located away from the building's main entrance which allows direct access to the entire school.

A staggered lunch period is required to accommodate the number of students because to the small size of the cafeteria.

This project proposes to build a new secure entrance and extend the cafeteria to provide a larger area for lunches at this PK-8 facility.

This facility has one gymnasium to provide PE to PK-8 students. A larger cafeteria will allow staff to conduct separate PE classes.
