

School Building Authority of West Virginia
CALHOUN COUNTY – CALHOUN COUNTY MS/HS CHILLER & BOILER REPLACEMENT

Calhoun County MS/HS was built in 1998 with SBA funds. Many systems are starting to fail due to their age.

Boilers are original and has exceeded its life expectancy..

The county has replaced one chiller with local funds. The other chiller has continuous issues and needs to be replaced.

This will help the facility to improve air quality and will help maintenance to work on preventative issues.
