

School Building Authority of West Virginia
HANCOCK COUNTY - OAK GLEN MS - REMEDIATION OF PYRITE SHELL

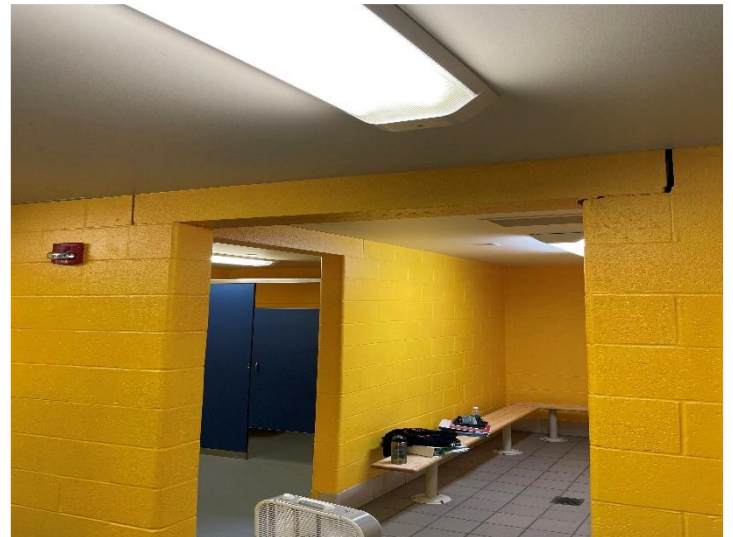

This is an SBA funded facility built in 2005. Pyrite soil issues have been discovered on the east end of building.

The educational wing with music, art, locker rooms and gym are affected at this time.

Several cracks can be seen around windows and doors throughout the facility.

Several door lintels have pulled apart. Additional civil engineering and geotech report are anticipated.
